2. *Activities of Management*

The 2017 Q2 Report was released on April 17, 2017. See www.glenbriar.com for details.

3. *New Products or Services Developed or Offered*

Glenbriar has transferred its internal infrastructure to its Cloud infrastructure. Existing hosted clients are also being migrated and added to new Cloud hosted clients. By focusing on keeping the data in Canada, new hosting opportunities arise in industries that are sensitive to the location and storage of their data and intellectual property, such as health care, financial services, technology innovation and natural resources.

As business technology moves from in-house infrastructure to the Cloud, using public, private or hybrid models, Glenbriar is transitioning its clients to optimize their Cloud strategy to fit their business growth, needs and outcomes to ensure the right mix of Cloud, on premise and hybrid solutions to fulfill their objectives.

4. *Discontinued Products or Services*

Glenbriar is in the process of realigning its services for small business customers to allow them to transition to a more Cloud-centric model. The downturn in the business cycle in Alberta has led to the bankruptcy or shutdown of a number of Glenbriar's customers in that province.

9. *New Developments or Effects on Intangible Products or Intellectual Property*

Glenbriar owns the intellectual property rights to its Glenbriar MMS software suite.

10. *Employee Hirings and Terminations*

Glenbriar filed a statement of claim in Alberta Court of Queen's Bench in September 2015 against IT service providers and former senior managers and employees for breach of contract, fiduciary and various common law duties in connection with certain activities in 2014 and 2015. Since November 2015, Glenbriar has settled the claim with 9 defendants, leaving only 1 defendant.

13. *Indebtedness Incurred or Repaid*

Total finance leases had an original balance of \$202,376 (current balance – \$65,295), with final payments due between November 2017 and September 2019.

The finance loans relate to the purchase of two office operating systems. The financing loans of \$99,388 (current balance – \$46,298) are non-interest bearing and unsecured, with final payments due on December 1, 2018 and February 1, 2019.

Glenbriar is repaying the Royal Bank of Canada under an agreement that provided for monthly payments of \$20,000 until April 20, 2017, with the balance due in May 2017. The bank holds the first secured charge over existing and after acquired property. 16. *Changes in Officers, Directors or Committee Members*

There was no change in officers, directors or committee members in April 2017.

17. *Market, Political and Regulatory Trends Affecting Glenbriar*

The shift in business computing toward the Cloud, mobility and big data will continue to be a disruptive influence in almost all industries over the coming decade. Glenbriar’s commitment to redesign and redeploy both its internal and external operations will allow us to take advantage of the resulting opportunities for the benefit of our clients and shareholders, including a new Cloud data centre, back office infrastructure, and human resources adaptations and incentives.

The business technology market is moving toward Cloud based provision of applications and services. Glenbriar is building a new Cloud infrastructure to keep abreast of these changes. The downturn in the Alberta economy continued to have a negative impact on Glenbriar, with a number of clients going out of business over the last few quarters. This resulted in a loss and reduction in revenue for the first quarter of fiscal 2017. In response, Glenbriar has engaged in cost cutting and streamlining operations to provide for a return to profitability for the balance of fiscal 2017.
