

Carrying the Torch in the Face of Personal Tragedy

CALGARY, AB, **May 28, 2013** — Glenbriar Technologies Inc. (CNSX:GTI) reached out to the community today to encourage ongoing support for the selfless efforts of one of its officers in the face of deep personal tragedy.

Christine Padaric is the Vice-President of Software Services and Human Resources for Glenbriar. A few short weeks ago, her younger son, Austin, fell victim to an accidental overdose of opiates at the age of 17. Despite their profound misfortune, Christine and her family have honoured Austin's memory by trying to educate others on the dangers of prescription drug abuse, in the hope that further tragedies may be reduced or averted. With eight times the potency of morphine, it takes little for opiates to induce horrific results. Details are available from the following links:

- a) Christine has kept a detailed blog from the outset that chronicles the events, emotions, stages, and the decision to have five of Austin's vital organs harvested for transplants:
<https://www.facebook.com/pages/Ozzies-Update/527398940634555>
- b) Christine and her husband Klaus were interviewed in the Kitchener-Waterloo Record:

"We are all grieved by Austin's departure at such a young age," noted Robert Matheson, Glenbriar's CEO. "We commend Christine and her family on their efforts to get his story out. These selfless actions are the best signs of honour and respect they could show for Austin. We encourage others to learn from those efforts."

About Glenbriar

Glenbriar Technologies Inc. (CNSX:GTI) supports the complete information technology needs of over 300 enterprises from its offices in Calgary, Vancouver and Waterloo. See www.glenbriar.com for more details.
